

TRISARA

Facts and Information

Trisara has become a landmark since it opened in November 2004.

Phuket's most exclusive, small resort is located over a private bay just 15 minutes from Phuket International Airport on the Island's quiet, undeveloped northwestern coastline. The short drive from Phuket Airport is a beautiful introduction to the "real" Phuket, winding through small villages, jungle and beaches before arriving at the resorts discreet entrance, which is hidden by towering ancient hardwoods.

The gently sloping contours of the site have been developed to allow all villas to embrace wide ocean views, sunsets and the cooling sea breezes that flow throughout the property.

The resort's 39 pool suites and villas, guest facilities and 18 residential villas sit within 40 acres of gardens that rise gently from the 1,400 meters of absolute ocean frontage, ensuring total privacy in each villa or suite. The property is well secured as there is only one protected and guarded road entrance.

To quote a recent article written by one of the world's leading travel writers.....

Effortlessly elegant, relaxed yet refined, Trisara is a gem and something of well-kept secret among the well-heeled guests (including camera-shy celebs, royalty, and heads of state,) who come for their own very private piece of paradise set in 40 lushly landscaped ACRES of gardens on a secluded bay surrounded by tropical forest, far from Phuket's madding crowds. The setting alone is enough to calm the frazzled nerves of the most stressed-out exec or fatigued yummy mummy. The resort features beautifully designed, supremely comfortable pool villas with panoramic sea views that are frequently rated among the best anywhere. Since opening in 2004, the resort has won accolades and awards--recently voted 'Best Leisure Resort Worldwide' by readers of the influential Gallivanter's Guide. Trisara cleverly blends all the best elements of a chic boutique hotel with the services and amenities you'd expect from a much bigger resort. The result is that everyone is happy.

Grownups can relax in the superb spa, do yoga on the beach, workout in the sleek gym with a personal trainer or chill out at the villa, while kids have a cool club and lots to do --the staff arrange outings to nearby islands, and there is excellent snorkeling in the aquamarine water, diving, yachting on the resort's lovely boats, fishing, golf and tennis.

The service is attentive, discreet and well-disciplined. The cuisine is mouthwatering, using the freshest local seafood, fruits and vegetables for both Thai and international cuisine.

Our favourite things to do.....some experiences we would do if we were guests, both at the property and outside Trisara;

Half or full day cruise to the famous Phang Nga Bay and other Islands nearby

This is perhaps the one activity we would do if we only left Trisara once. Phang Nga Bay (James Bond Island) is truly spectacular.

Helithai offers private or group charter flights over the bay and elsewhere in a brand new EC 130B4 Eurocopter. The helipad is only 10-15 minutes from Trisara. On a calm day this is truly amazing.

Private yoga classes at the seafront pavilion

Our yoga sala is located at the private little headland along the garden pathway from the end of the main pool. We offer private yoga classes with our resident master, or our consultant teachers.

Romantic Surprise

Let us arrange a romantic surprise for your loved one. We can organize a Spa treatment before sunset, while our housekeeping team transforms the villa with beautiful flowers in your pool, together with a bottle of chilled French Champagne, scented candles and floral petals in the room. There is no more romantic way to experience Trisara sunsets. (Perhaps best followed by a private in-villa BBQ)

Private in-villa barbeque

Be spoiled as one of our chefs prepares a private barbeque on your own pool deck. Select the food and let us prepare and serve you a wonderful meal in the privacy of your villa.

Thai Cooking classes

Join us in our main kitchen and be taken through the joys of Thai cuisine. You get to choose what you would like to cook and work alongside our kitchen team, ending of course with you eating your own creations.

Elephant ride and a rainforest walk

The island's most significant rainforest and waterfall is a great place to visit, located about 30 minutes away. You can also ride on board a friendly elephant through the forest.

Old Phuket City private tour and shopping.

Take a fascinating short walking tour around the old town in Phuket City to explore the colonial architecture, interesting little shops, cute restaurants and the famous Phuket Provincial Hall, which was featured in many Hollywood movies. This is a half-day trip and we recommend you take one of our cars and a guide.

Khao Sok National Park (Full Day trip)

Travel over the bridge north of Phuket Island to experience the incredible Khao Sok National Park, with its amazing limestone cliffs, rivers and primary tropical forests. There is so much to do in this beautiful area, from kayaking, trekking, waterfalls and the magical rainforest. We use a very good guide/company to run this day out.

Starlight sea canoe

This company offers great canoe trips in Phang Nga Bay in the later afternoon and after sunset!!!

Buddhist temple / Blessing

A visit to a local Buddhist temple is an uplifting and spiritual experience. We enjoy taking our guests to visit Wat Manik, our local temple to make merit and be blessed by the monk. This is a very special experience and the lobby girls can arrange it all, normally before 9am daily.

Guests can move easily around the resort in our electric Buggies by simply dialing the lobby.

Phuket & Thailand General Information

Phuket, with a population of around 500,000 is Thailand's only Island province and is also the smallest of the nation 76 provinces in terms of land area. Phuket is Thailand's largest island at **550 sq. km**, roughly the same size as Singapore and is situated 8 degrees north of the equator. The Island is approximately 40km long and 8 km wide at its widest point.

Phuket lies off the west coast of southern Thailand in the Andaman Sea (Indian Ocean), approximately 890km south of Bangkok and is connected to the mainland via a road bridge. Phuket was originally inhabited by Sea Gypsies, or fishermen.

In the mid 19th Century, the Island was found to have rich and plentiful supplies of tin, and this brought with it many Chinese immigrants who came to mine the tin. When the price of tin fell, the primary commodity became rubber and even today the Island is dominated by rubber trees, which is still a large industry. However in the 1970's, tourism became more and more popular due to the lovely beaches, great weather and the release of the James Bond movie, "The Man With The Golden Gun", filmed around Phuket and Phang Nga Bay.

The "Wai" is the traditional Thai greeting which is used instead of a handshake, but it can also be used as a means of saying sorry, thank you, or to pay respect. Thai person will often Wai as he approaches a temple, Buddha image, or other item of religious significance.

If you are introduced to a Thai and that person Wais to you then you should try and return the Wai. Generally the younger people will Wai first.
